Emerging Markets long-term business	9.0% Cash, deposits & bonds: 75% Equities: 25%	9.0% Cash, deposits & bonds: 75% Equities: 25%	8.0% Cash, deposits & bonds: 75% Equities: 25%

1. The long-term rates are derived from an independent review of future risk-free 10 year Government bonds, 3 month Libor and money market rates. The SA BU's hold Equities in their asset portfolios and a risk-premium is added to the Govt Bond rate in order to derive an expected return from equities. These rates are weighted against the prescribed asset mix in each BU's asset portfolio in order to arrive at a blended long-term rate, as disclosed above.
2. The 2013 fall in L/T rates is driven by falling forward rates in each country. M&F and Old Mutual Wealth have also shifted their portfolios to higher cash holdings.
3. Combined Wealth Management and Retail Europe rate.
